**HO - SCALE PRODUCTS FOR BOTH
RTR & COMPLETED CARS
CONTAINERS & TRAILERS**

May 2014

THE FOLLOWING PAGES CONTAIN A COMPLETE PRICE LIST OF OUR PRODUCTS FOR COMPLETED & RTR CARS IN HO - SCALE.

PRODUCT BACKGROUND

Adair Shops has developed unique THIN WEIGHT SEGMENTS that are a non-toxic industrial lead-alloy, for model railroad cars, ready to install in or on your kit or car without you having to cut or sand the segment. Our weight kits are made for specific open HO SCALE MODEL RTR CARS AND KITS; FLAT CARS, GONDOLAS, HOPPERS, AUTO RACKS, BOXCARS WITH OPEN DOORS, STOCK CARS, CABOOSSES, WELL & IMPACT CARS, and now even FOUR - RUNNERS, and some PASSENGER CARS both kits and RTR, even RTR cars with full interior details and lighting, yes, even circuit boards. The "R" weight kits will bring your car up to NMRA Recommended Practice weight, and the "H" (Heavy) will be NMRA weight plus 25% to 33% more. We target 85' passenger car weight kits to bring the completed car close to 9 oz, well above NMRA, but for good stability with three axle trucks, both modern and heavyweight. For prototype application of our style of car weighting, be sure to read THE DIESEL ERA Article in the Sept. / Oct. 2003 (Vol 14 Number 5) issue, Pages 51, 52, 53. Our water-base glues both Weight Bond™ Glue and Sound Bond™ Glue (used for electrical isolation) have been developed to adhere to both plastic and our metal without damaging the model. If you make a mistake simply remove it with a dental type instrument and relocate the segment to its' correct position. Each direct shipment includes kits with all parts ready to install, no cutting or filing, and enough glue for installation of the number of weight kits ordered. Each bottle of glue is enough for at least 10 kits. Each kit contains finished weight segments, a diagram and instructions. We suggest you check our website at www.adairshops.com for additional news and product news. We are looking forward to serving you and providing a product that allows you to operate your trains like the prototype. Next time you see a passing freight, watch for the open or empty cars, you may be surprised at how many are empty, have their doors open, and / or have new replacement, plate floors.

Sincerely,
ADAIR SHOPS

UPC CODE WEIGHT BOND™ GLUE

PRICE EACH

07000 PRODUCT # 7701 - 1 BOTTLE (1oz. ENOUGH FOR 12 KITS)\$ 5.14
(SORRY, LIMITED STOCK)

NOTE:

The best recommended glue for our RITE WEY™ WEIGHT KITS is Our non-toxic water base WEIGHT BOND™ GLUE. Any glue that is not Water-based and non-toxic is never recommended for use with our Industrial lead-alloy RITE WEY™ THIN WEIGHTS. Other non-toxic water based glues produced a bond, but not a permanent bond. How well or how long will these other glues hold we have no way of knowing due to conditions with temperature, shipping, handling, storing before the customer purchases or uses the glue.

PINK SOUND BOND™ GLUE

(ANOTHER NON-TOXIC WATER BASE GLUE)

07002	PRODUCT # 7705 - 1 BOTTLE (1 oz.)	\$ 5.14
07003	PRODUCT # 7706 - 2 PACK (TWO 1 oz. BOTTLE)	\$ 9.10
